EDUCATION

BMS Institute of Technology & Management

Bachelor of Engineering in Electrical & Electronics (GPA - 6.84/10)

Bengaluru, India

Aug. 2015 – June 2019

Delhi Public School

Science Stream (86%)

Ranchi, India

April 2013 – April 2015

EXPERIENCE

Internship

Wipro Technologies

Jan 2019 – March 2019

Pune, India

- Developed python scripts for automating various workflows.
- Worked with selenium, web scraping
- Performed execution of test cases and analysis of logs
- Worked on JIRA, Confluence

Software Developer

Wipro Technologies

June 2019 – June 2020

Pune, India

- Worked with ReactJS to develop test web applications and its components.
- Used drag n drop feature with redux for enhanced user experience.
- Used Class Components of ReactJS and performed state and ref update. Knowledge of `componentDidUpdate`, `componentDidMount`.
- Development using Advanced Python in application & systems. Libraries like Collections, OOPS, Xlrd, Numpy, etc.
- Multiprocessing & Multithreading , logging & development of processing messages.

Senior Software Developer

Wipro Technologies

June 2020 – June 2022

Pune, India

- Using TypeScript, JavaScript and React to develop websites & workflows
- ReactJS with their design libraries like Ant Design, Fluent-UI, Markdown, Bootstrap. Using life-cycle hooks (`useState`, `useEffect`, `useRef` & custom hooks)
- Usage of Redux, router, state management, props, and interact with API.
- Hoisting, Closure, HTML5, DOM BOM, Virtual DOM, Event Handling, Navigation Handling, Arrow Functions, JSON Parsing.
- Used React libraries, Sharepoint 365 , lifecycle hooks, and responsive props. Used debouncing and lazy load for performance enhancement.
- Cypress for unit testing and Using Axios for API Calls.

PROJECTS

All Manager | *Python, React-Native, JavaScript, TypeScript, Redux*

July. 2022 – Aug 2022

- Developed an app it using React Native
- Python back-end development over TCP-IP and multi-threading.
- Using State management and Axios API calls login and user registration is done as well as CRUD operations.

Spotify App | *NextJS, TypeScript, Axios*

Sep. 2022 – Nov 2022

- Developed an app it using NextJS and TypeScript
- Using Spotify API to build the app which simulates Spotify.

TECHNICAL SKILLS

Languages: JavaScript, Python, TypeScript, SASS, HTML5, LESS/CSS3

Frameworks: React, Sharepoint365, VueJS , Cypress

Developer Tools: Git, Linux, VS Code, PyCharm, React Dev, Chrome/Edge/Moz Dev, gulp

Libraries: Pandas, React, Redux, Fluent-UI, Bootstrap, FontAwesome, JSON
